

STANDARD LIFELINE KITS

Mine Lifeline has the only complete lifeline kit in the industry. They contain: 1000' MSHA approved, steel lifeline cable with cones installed on 50' centers and reflectors installed on 25' centers. Also included are 3 mandoor indicators, 4 tensioning clamps, 40 s-hooks, and 40 snap hooks for hanging. Custom configurations available upon request.

Part #	Description
1000MA	1000' AMBER LIFELINE KIT
1000MB	1000' BLUE LIFELINE KIT
1000MC	1000' CLEAR LIFELINE KIT
1000MG	1000' GREEN LIFELINE KIT
1000MR	1000' RED LIFELINE KIT

Standard reflector has red backer with reflective "X" only. Nonreflective white backer available. To order, add "W" to the part numbers above.

DURACOMM KITS

Duracomm signal cable has all the same features of the standard lifeline kit with the added benefit of communication. It consists of 2C, 14 AWG, steel core, copper clad, insulated wire housed in a MSHA approved outer jacket. The ends are gold plated, weather proof, plug-type connectors, which make installation simple.

Part#	Description
1000DMA	1000' AMBER DURACOMM KIT
1000DMB	1000' BLUE DURACOMM KIT
1000DMC	1000' CLEAR DURACOMM KIT
1000DMG	1000' GREEN DURACOMM KIT
1000DMR	1000' RED DURACOMM KIT

Standard reflector has red backer with reflective "X" only. Nonreflective white backer available. To order, add "W" to the part numbers above.

ADDITIONAL REFLECTORS

Each reflector kit contains 50 reflectors with clips, 40 s-hooks, 40 snap hooks, 3 manddoor indicators, and 4 tensioning clamps.

Part#	Description
DELINEATOR-A	AMBER REFLECTOR KIT
DELINEATOR-B	BLUE REFLECTOR KIT
DELINEATOR-C	CLEAR REFLECTOR KIT
DELINEATOR-G	GREEN REFLECTOR KIT
DELINEATOR-R	RED REFLECTOR KIT

Standard reflector has red backer with reflective "X" only. Nonreflective white backer available. To order, add "W" to the part numbers above.

OPTIONAL HANGERS

Don't compromise the durability of a steel lifeline system with nylon hangers. Steel extensions can be used to drop the lifeline within reach. These can be easily installed using our magnetic tool without a ladder. Select the desired length below.

Part#	Description
EXTEN-6M	6" EXTENSION KIT, 50 PK
EXTEN-12M	12" EXTENSION KIT, 50 PK
EXTEN-24M	24" EXTENSION KIT, 50 PK
EXTEN-36M	36" EXTENSION KIT, 50 PK
EXTEN-48M	48" EXTENSION KIT, 50 PK
EXTEN-60M	60" EXTENSION KIT, 50 PK
EXTEN-72M	72" EXTENSION KIT, 50 PK
INSTALLTOOL	MAGNETIC INSTALLATION TOOL

Install tool with extension

The steel extension coil can be used to give more flexibility to your installation. In low coal, it allows the lifeline to be stored at the roof and pulled to the ground for crawling. It can also be used for break away systems in taller seams. The coil design offers user adaptive height during escape as well. Unlike rubber tubing and bungees, these coils offer the same durability as the steel lifeline cable.

Part#	Description
COIL-1250	12" EXTENSION COIL, 50 PK
COIL-2450	24" EXTENSION COIL, 50 PK
COIL-3650	36" EXTENSION COIL, 50 PK
COIL-4850	48" EXTENSION COIL, 50 PK
COIL-6050	60" EXTENSION COIL, 50 PK

LIFELINE SIGNALS

Take the guess work out of lifeline signals. Everything required comes in one convenient package. They are simple to install by following the provided instructions. Made of high quality steel lifeline cable, each branch line comes standard in 50' length. The snap-on design eliminates any need for tools. Additional lengths available.

Part# RFG-BRANCH Description REFUGE BRANCH LINE KIT

Part# SCSR-BRANCH Description SCSR BRANCH LINE KIT

Part# ADDABALL-25 Description MANDDOOR INDICATOR, 25 CT.

Part# SNAPCONE-50 Description SNAP-ON CONES, 50 CT.

LIFELINE ACCESSORIES

The lifeline service kit contains everything you need to repair and maintain your escapeways. Each kit includes: 100' lifeline cable, 4 tensioning clamps, ratcheting hoist, cable cutter, 12 reflectors with clips, 12 cones, 12 splice connectors, 6 manddoor indicators, and a utility knife. It comes packaged in a vinyl bag with carry strap.

Part#	Description
LLRK-A	AMBER SERVICE KIT
LLRK-B	BLUE SERVICE KIT
LLRK-C	CLEAR SERVICE KIT
LLRK-G	GREEN SERVICE KIT
LLRK-R	RED SERVICE KIT

Part# CBLCONNECT Description SPLICE CONNECTOR, 25CT.

Part# SNAPHOOK Description STANDARD HANGERS, 40 CT.

Part# CBLGRIP Description TENSIONING CLAMPS, 25 CT.

Part# FELCO-C7 Description HEAVY DUTY WIRE CUTTERS

DURACOMM ACCESSORIES

Part# T-CONNECTOR Description 3-WAY CONNECTOR

Part# 9107-1001407 Description IN-BY CONNECTOR

Part# DURASPLICE Description CLAMP ON CONNECTOR W/ PLUG

Part# 9107-1001406 Description OUT-BY CONNECTOR

CUSTOMIZATION

Unlike other manufacturers, Mine Lifeline works directly with end users to build complete systems. Lifeline kits can be customized to meet any and all mining conditions. No other company has the experience or knowledge to provide this service. Whether you are looking for custom hangers, break away systems, variable height systems, or even training systems...we have it. Lifelines are intended to save lives. Proper installation is a must. Mine Lifeline will help you develop a system specifically for your operation. We provide more than products...we provide solutions. Call today!
